Foreword

We, as a class, have worked together for three years. Our senior year, however, stands out as the year, when our unity as a class has become most pronounced. Despite the handicap of being the smallest class in the history of Roslindale High School, we have managed to acquit ourselves well. Our many successful class projects will always be remembered with a glow of pride and nostalgia.

Now, we are preparing to take our different courses on the wide road of life. For us who graduate this year entry into the world will be an undertaking most hazardous because of the tumult of the war-torn world which awaits us. Ours is a generation which is certain to have difficulty in making a start in life. Because of the confusion and indecision which rends the world, we, as individuals, are faced by an uncertain future. Therefore, we cherish with an unusual affection the happy memories of our school days. Into the few pages of our Year Book we have tried to crowd the story of our three years' growth. We take the book with us proudly and affectionately as a tangible reminder of our days at Roslindale High School.

THOMAS F. GATELY

OUR HEAD MASTER

To the Class of 1951

Because you are the first class of the Roslindale High School to spend all your high school days under my guidance, I will always have an especial affection for you, the Class of 1951.

You are leaving Roslindale High School to face an upset and troublous world. You are about to meet a great challenge, one as great as any that has ever faced the youth of our nation. In ordinary times our national problems of iniquitous bigotries, racial prejudices, and economic instabilities would present a challenge quite sufficient to test any group of young people starting adult life. Now that we as a nation are committed to a whole-hearted participation in world affairs, added to the national problems which would normally confront you as young citizens are those of assuming world leadership in opposing Communism with its Godless philosophy and ideologies.

The challenge to you is one of service, service to your fellow-man, to your God. Never before has the demand for unselfish service been so great; never has it been so completely exacting of youth.

Within the range of your own abilities, let each of you be responsible for all the good you are capable of doing to protect the rights of the individual (as a human being) and as a creature of God.

In serving your fellow-man in your community, in your country, and in the world, you will at the same time serve God. May He inspire and guide each of you to serve to your full capacity. May He soon, through you and others like you, shower the blessings of good will, brotherhood, and peace upon the nations of the world.

CLASS

DRAWN BY
NORMA SCHLOSKEY

The sun came up that September morning with an amazing aurora as a new era dawned at Roslindale High School. For the morning sun that day saw enter there not the usual crowd of cringing, green sophomores, but instead a highly intellectual group of young men and women, many of whom already were VIP's, BTO's, or just plain "wheels" who were determined to make an impression.

On that remarkable day, September 9, 1948, the smallest class ever to enter the Roslindale High School met for the first time. And it was also on that day that the members of that class were introduced to Roslindale's new Head Master, Mr. Thomas F. Gately. He and we (for of course we are talking about ourselves) started our careers on the same day.

That first year of ours brought forth the famed Pyramid Club, which enriched some fortunate Rossieites and impoverished others; the yo-yo craze, which uncovered many hitherto undiscovered talents; and also the unique Monopoly, which we stomped to the tune of *Harlem Nocturne* at both the Football P'op of 1948 and the Key Club's Valentine Dance.

Our class was well represented that year in the Glee Club, the French, Spanish, and Italian clubs, and even in the radio workshop, which broadcasts to this day over Station WMEX. In November was held the first honor assembly, especially for sophomores, at which time all who had made the honor roll and merit list received public recognition for their efforts. My, but we were proud of our large representation!

That was a good football year, too. The team brought glory to Roslindale in the sports field with their record of four wins and three ties. We even tied Southie 7-7. And even then, be it noted, Carmen Donaruma was making his contribution to athletic triumphs for our school.

During the year Miss Hogarty and Mr. Downey joined the faculty and were welcomed to the sa'esmanship and physical education departments. In May Kathryn Fairbanks accomplished the first of her many remarkable feats in the field of writing. She won first prize for her essay in the Boston Advertising Club contest. Plus one hundred dollars!

But then came June and the end of our sophomore year.

The fall of 1949 found a less bewildered and more confident crowd returning to the now familiar institution on Poplar Street. Our junior year will be remembered by all of us for the many stale jokes about the Brink robbery; for the thrill of seeing our gallant football heroes play in the new George White Stadium, where they had a most successful season; and for the short hair and sneakers which began to appear on the distaff side. Once again the now-traditional Football Hop and the Valentine Dance were a huge success. This time it was "O've Got a Lovely Bunch of Coconuts" which became the rage.

Doris Johnson, William Pfau, and Harlan Pinkham entered the Boston Public Schools' fourth annual Science Fair and received Second Science grants for their entries. Kathryn Fairbanks again wrote a winning essay, this time in the Museum of Fine Arts contest, and once again brought honor to herself and to her class. That year, also in the field of literature, the *Tattler* won first prize for the best magazine produced by New England Schools of our size. Anton Benjamins was awarded a certificate of merit for his autobiographical sketch in the contest conducted by Scholastic in the New New England States. The Harvard Book Prize was awarded to John Kliphan of '51.

Members of the French and Spanish clubs rattled off their *bonjour's* and their *hasta la vista's* in the always popular French and Spanish assemblies. Another outstanding assembly held that year was the Junior Achievement assembly, at which the guest speaker, Mr. Maurice J. Kelly, told us of the advantages of first-hand business experience. In January the Roslyn Chapter of the National Honor Society held its induction assembly, at which inspiring ceremony Mr. D. Leo Daly was the guest speaker. The following fifteen members of our class were inducted as members: Lillian Barile, Carole Chisholm, Ann Coghiano, Ada Cosimini, Janet Faulstich, Joanne Gravalese, Margaret Haley, Webster Howard, Doris Johnson, Rosemarie Kelley, John Kliphan, Joan Lund, Eileen Marzilli, Norma Schlosky, and Winifred Shephard.

The year approached its close with the most spirited election ever held in the school. Each candidate made an inspiring speech telling why he should be elected to the office he sought and promising all sorts of improbable things if he were so elected. When we cast our ballot, the results were that Joseph Evangelista was our president, Patricia Chisholm our vice-president, Dorothy Walter our secretary, and Dorothy Stahler our treasurer.

Spring gave way to summer, and with summer naturally came vacation, to be followed by the climax . . . our senior year! Two years now had passed since this unusual class entered R.N.S. We were well aware of the fact that we had done as we intended: we had made an impression. The question was this: was it good or bad? We hoped that our senior year would record the answer.

HISTORY

In the fall our newly-elected senior council, working under the excellent guidance of Miss Neal and Mr. O'Brien, went to work with vim, vigor, and vitality to produce the following schedule of social events for our senior year:

The Football Hop, a smashing success, held in the gym on November fourth.

The Variety Show, "Days We Used to Know," the greatest musical ever produced this side of Broadway, held in the auditorium on December fourteenth and fifteenth.

The Senior Promenade, a most swanky affair, held at Longwood Towers on April sixteenth.

From the day of the first senior council meeting we were hounded by these money-mad councillors for money of all sorts,—for class dues, for pictures, for *Year Books*, for the *Tattler*, for club dues, for prom tickets. 'Tis a wonder we ever survived solvent.

With the help of Miss Gordon and Miss Stavrinou, Rossieites were able to break all sorts of records and fill the greatest number of Red Cross boxes for needy families, dress the greatest number of dolls in the most lavish finery for under-privileged children, and fill the largest Christmas stockings for the men at the West Roxbury Veterans' Hospital.

We were sorry to learn this year that Miss Clare L. Martell, who had been a member of the English department for many years, had been transferred to Boston Teacher's College, and that Miss Margaret Learson had also left the faculty to teach home economics at the High School of Practical Arts. Mr. Branca, also to our regret, left us to become a major in the Army of the United States. But we welcomed as new faculty members Miss Alice Croke, Miss Mildred Pratt, Mr. Frederick J. Gillis, Jr., Mr. Robert Murphy, and Mr. Arnold Fitzpatrick.

The Reverend Harold Johnson, a graduate of our own school in the class of 1962, gave a most inspiring talk at the annual induction exercises of the Roslyn Chapter. At this time four members of the class of 1951 were inducted: Jane Diggins, Joan Garvey, Nils Hokansson, and Ursula Looney. The officers of that august group for the year 1950-51 were Carole Chisholm, president; Joan Lund, vice-president; and Eileen Marzilli, secretary. Miss Lucile A. Harrington of the faculty continued in her dual role as faculty adviser and treasurer.

The athletic season opened exuberantly on "R" day, Friday, September 22, with the sale of the maroon-and-gold R pins. Our spirited football team scored a triumphant victory over Brandeis and then . . . enough said about football, except to mention that our stalwarts Carmen Donaruma, Neddie Brennan, Tom Georgio, Jim Mullen, Wally Collins, Richie Dow, Bill Goods, Joe Evangelista, Jock Phinney, and Manager Joe MacDonald did their level best. The basketball team, however, deserves congratulations for actually putting Rossie on the basketball map this year. Ron Ferrara, Jack Connolly, Bob Biggar, Chuck White, Joe Evangelista, Web Howard, and a large corps of managers, time-keepers, scorers, and what have you, accomplished what we were beginning to think was impossible. The hockey team, with Denis McLaughlin, Bill Anderson, John McKenzie, Tom Donovan, Tom Georgio, Neddie Brennan, Jim Guernsey, and the ever-present Mr. Donaruma, (who apparently doubles in brass), just missed the district championship by one game. And the track team had a most successful year both outdoor and in, with Dick Fein breaking records in all sorts of events, and assists going to John Sullivan, Phil Doherty, Tom Kerrigan, Bob Cashman, Jim Mullen, and many others.

In the field of entertainment, it would be superfluous to try to tell again of the fifty-one varieties of talent which our class displayed in "Days We Used to Know." And now we hear that Oscars will be awarded to leading players of "Everything Will Be All Right on the Night," the Roslyn Chapter play which had its premiere on April second.

Now the question that confronts us is this: Is the world far enough advanced to receive into its arms the conglomeration of geniuses which will be propelled with a mighty roar from within the walls of this institution of learning on June 5, 1951? As we ponder the question, however, the enthusiasm with which we have looked forward to graduation is dampened a bit by the thought that we must so soon leave it all behind: the school to which we have become so attached, the classrooms from which we thought we wanted to escape, and the teachers who have had so much influence, and so fine an influence, on our collective and individual lives.

It is, therefore, with not a little sadness and with a great deal of affection . . . if not with much originality . . . that we say to Roslindale High School, our alma mater, "Hail and Farewell."

TRIAL SWIM IN ARCTIC OCEAN

DO STAHLER AND ALMA PATERSON SWIMMING RIVALS

ANNOUNCER:

On the planet Mars it is now the year 1971. In view of that convenient fact, our class prophets have volunteered to step aside today to allow three people (if you can call them that) who are better advised on the future, to present to you a technically accurate prophecy. After considerable and understandable difficulty in radioradarphone communication with the planet Mars, we have arranged with the Martian Imperial Government to have three real, honest-to-goodness Martians here. They may, however, be a little late. The last we heard from them, they were having rocket-engine trouble, but since then they've been seen circling for a parking place out front. Still if they don't show up in a few . . .

THE MARTIANS:

Wait a minute!
Hold everything!
Here we come!

Oh, and by the way, we had a little parking difficulty, friends. Will the person who *had* a ear licensed number (this is what's left) please come up and claim it after the prophecy?

And speaking of prophecies, that's just what we're here for, believe it or not!

Y'see, up on Mars we keep a pretty good watch on the earth from our super-telescopes. But because of some natural phenomenon, we don't see the earth as it is by earth time, but as it will be in twenty years. Any physics teacher will explain the whole idea to you — something about light rays that dunno where they're going, so they back up, or sumpthin'. Well! There's the first person we see on the Earth of 1971. And if it isn't Richie Dow! Remember him and that Tom Harvey? After five years of hard labor, they finally completed their book entitled *How to Avoid the Income Tax in Three Easy Lessons*.

I hear that Carmen Donaruma, star centerfield for the Boston Red Sox, is making a measly \$100,000 a month. Joe MacDonald, his manager, is trying to keep Infernal Revenue Collectors Joan Lund, Ruth Wilen, Irene Getz, and Carol Simpson, former Senior Council members, away from his door.

Lady Atwater Smythe, the former Eileen Marzilli, was entertained recently by some of her former schoolmates: Carol Camerlengo, world-famous dietitian, Carole Chisholm, renowned artist; Lillian Barile, famous historian; and Peggy Haley, wild animal trainer.

Bob Pinkham, John Kliphan, and Puffy Pfan are drawing up plans for the latest Truman Venture, a Trans-Atlantic bridge.

Fingers LeMay and Boop-oop-a-doop Harney can now be seen starring with DonJuan Calligan's Orchestra at Joe Evangelista's Club 17.

Did you read about Ed Harms going to Siberia to join the French Foreign Legion with Kevin Moore, Tom Meliean, and Jim Guernsey? They are accompanied by their brides, Connie Adams, Adrienne Beaton, Rose Colli, and Kay Kyne.

When Prima Donna LaSonja Ferrara, feature attraction of Johnnie Walsh's lavish new ice-show, Ice Cubes, aroused the curiosity of her audience, newspaper critic Bob Ryan, together with *Life* photographers Flash Grant and Dick Delaney, asked her the inevitable question, "Why don't you skate on your feet?" La Sonja calmly answered, "Why should I, when I can skate for hours on end?"

PROPHECY

Arthur Murray's Talent Scouts, sponsored by Hayden's Tea Bags, can be seen on Monday nights on WRHS-TV. This week's show is guest night, with an all-star cast featuring Donnie Ulrich, mimic; Rose Kelley and Pat Limerick, song-and-dance team; Dick Burns, crooner; and Dick Kirkpatrick, baritone. They are only a few of the people who have climbed the ladder of success by stepping on the first rung in the RHHS Variety Show of 1950.

Well, it looks like Toni does it again! There is a Twins Contest going on. Competing for the grand prize of six cases of corn plasters, five pounds of genuine El Whiffo cigars, and two Toni permanents, are the Gudmund Sisters, the Harrington sisters, and the Jameson sisters.

Big Jim Moran is a sales manager for the Crosley Auto Company.

Janet Handy has recently become the owner of "Handy's Dandy Candy," a very sweet business.

Paul Buckley, Tom Varney, and Harry MacKay have gone into the inventing business. So far they have turned out a jim-dandy, fool-proof dinosaur trap, which will sell like hot-cakes as soon as somebody finds a dinosaur.

In Hollywood rumors are flying that Cecil B. Demerjian is thinking of filming the best-seller, *Algebra in Four-hundred-thirty-two Easy Lessons*, by Kathy Fairbanks. Of course it's only a rumor, but 'tis whispered that Danny Reisner will play the hero, Cubed, and that Jane Kane is to be cast as A. Cubed, his wife. Tony Palladino expects to be called in as director, Paul Donoghue will undoubtedly design the costumes, and Jane Diggins will supervise make-up.

Wally Collin's new perfume factory is going strong. The executive board of the company — consisting of Ed Brennan, president; Anton Benjamins, vice-president; Jim Blades, secretary; and Don Bruning, treasurer — has approved the latest creation, "Moon Over the City Dump." It is expected to be at least popular as "Essence de la Peche Morte," which is reported to be selling well at Phil Doherty's department store, and even more devastating that "High Noon in a Tannery." Joan Garvey, who is handling advertising for the company, says . . . quote . . . "Phew!" Dick Fein, now manufacturing a new gas-mask, expects to do a great business.

Janet Faulstich, noted set designer for John Dalton Pictures Inc., has announced that she will design the "Houses of the Day after Tomorrow" for the housing project on Sunset Boulevard. They are expected to eclipse even the three-trillion-dollar Joanne Grasso mansion, which is said to be some hut.

Maestro Webster Howard and Dot Walter are going on tour with their Soda Pop Symphony.

Charlie Lynch, matinee idol of millions, states, "All my leading ladies wear Elizabeth Consolian's Non-Smear Lipstick. It Satisfies."

JoAnne Boyce has acquired the job of teaching snakes to wiggle in Louis DeYesso's Wiggledrome, constructed by Denis, Richard, and Robert McLaughlin.

Rocky Graham was the hero of a minor plane mishap late this spring. Rocky, ignoring the fact that he had broken a finger nail, bravely stood by while the more seriously injured were taken out. Among them were Eugene Deneh, pilot of the plane, who suffered a stubbed toe; Dick Thomas, who came down with a reverberating case of hiccoughs; and the co-pilot, Bob McGowan, who sustained a bad attack of goose pimples. All four patients were rushed to the Richard Mais Hospital, where they were placed under the care of Dr. Gordon Sunderland, Dr. John Sheehan, and Nurses Harriet Lyon, Ann Johnson, Maggie Thatcher, and Lorraine Poirier.

Doe Stahler and Alma Patterson, swimming competitors, caught cold during a trial swim in the Arctic Ocean, just off the coast of Northern Siberia, on an overnight trip to Tokyo. The swimmers were nursed back to health by Joanne Braecelan and Peggy Duggan at the Kay Maguire Clinic in Tokyo.

Ronnie Ferrar, newly-elected mayor of Boston, has granted a contract to Daniel, John, and Robert Sullivan, Inc., to tear up the old subways and install a modern jet-speed tram-mobile, which was invented twenty years ago by Kay Hynes, Ruth Hagelstein, and Angela Bruno in their spare time in physics classes.

Rita Arvisais is successfully publishing her series of young people's books. With *Susan Kenney, Girl Athlete* a Book-of-the-Month selection, she is now completing *John Smith, Boy Tycoon*.

Kenneth Young has just patented his new fuel pill. One of these dropped into the gas tank of your car will give it a speed of 550 mph — straight up, that is. After several customers took off for the wide blue yonder, Young was obliged to hire Richard Wynn and Charles Mirabile as body guards to protect him from said customers.

Along the same line Helen Jagiello has thrilled the world with her cream puffs, developed back in '51 in the kitchens of Rossie High cooking classes. Only she knows the exact recipe, but they are said to contain four tablespoonfuls of nitro-glycerine. Caution! After placing in hot oven, run brother! When Helen's house burned down, the conflagration was promptly extinguished by Pat Doyle, Mary Shannon, and Nancy Gramolini, who are now running the Roslindale Fire Station. There was some controversy about fire insurance, but Chuck White of Liberty assured the puff-maker that all would be well taken care of.

Nancy Taylor, beauty consultant for Ada Cosimini Cosmetics Inc., recently discovered a sensational beauty secret, but unless you too buy a cake of Cosimini Cosmie Beauty soap, you won't be able to find out.

"Little Webster" Kerrigan is working as assistant assistant to Professor Einstein Crisafulli at Goldie's Mathematical Institute.

Sue Williams is serving as a model in Michigan for the Ipana Tooth-paste Company, proving that they agree with us that Sue is the girl with the nicest smile.

George Brown, Bob Biggar, and Al Eichinger left six months ago for Darkest Africa to do some zoological research for the Bob McCauley Museum of Natural History and the Franklin Park Zoo. With the assistance of Bill Koelch and Tom McKimmon, photographers for the party, gun-bearers Jim Jay, Bill Keiran, Bill Hurd, Phil Leon, and John Mahoney brought down an honest-to-goodness XYSTRBM, hitherto believed extinct.

The Olympics of 1970 were won exclusively by Roslindale High School 1951 graduates. This is not only very remarkable, but also very convenient for the class prophets. Tom Hampe won the discus-throwing championship, Doris Curtis was crowned champion tobogganist, while Bruce Worthley carried away the pole-vaulting title, going over the 2000-foot bar and coming down with a parachute and a nose-bleed.

According to the recent election held in Notsob, Massachusetts, it's not so good for the men. The town has gone to the women. The results are as follows: Mayor, Pat Butler; Fire Chief, Betty Aitken; Chief of Police, Joan Benoit; Dog Catcher, Margie Campbell; Justice of the Peace, Doris Engdahl; Town LifeGuard, Ann Doherty.

Would you care to fly around the world? Then take a quick course at Pat Chisholm's Flying School. In just one lesson one of the trained instructors, Ann Cogliano, Ann Duffy, Ann Gibbons, Gerry Lynch, or Barbara Rowan can

show you how to crash land. You can have confidence in these instructors: they are experienced crash landers. In fact they have done more crashing than anything else. Successful graduates such as Betty Riley, Pat Waldron, Mary Warren, Sally Ruedy, Peggy Kerrigan, and Paula McDonough say unanimously, "YIPES!"

If, when you've learned to fly, you take a trip to the South Sea Islands, you'll find Chubby Manning engaged in selling electric heaters to the natives. Of course the heaters were made by the K. Connolly Electric Company which has now bought out Pestinghouse, General Nuisance, and the Jack Connolly Electric Company.

That reminds me that Soupy Campbell is working as head electrician at Jim Healy's Cosy Corner Café. As an added attraction, Chee-Chee Cameron, Bluebird Lakis, Hot-Lips Iovinelli, Drummer-Boy Cashman, and 88 Keys Georgio can now be seen starring nightly.

Connie Page is looking for someone to sponsor a new soap opera written by Carol Waller and Marie Sinopoli, and starring herself. The thing is entitled, "Life Can be Beautiful and Frequently is, but Not on this Program."

Mal Flood recently made the headlines. She is working as compositor with the *Boston Herald*.

Eileen and Pat Sullivan have just opened their new Lollipop factory. Their slogan, dreamed up by Ellen Dennis, is "Be Happy-Go-Licky."

Tom Arria, shipbuilder, has just finished his first scow, garbage that is. Every Sunday afternoon he conducts tours to Hokansson's Landing *via* Mahr's Island. Among his distinguished passengers was Senator Bob Henzler, who was heard to have said that the excursion was "most scenic and stimulating." He recommends it as a must on every traveler's program.

Winnie Shephard has announced the opening of her College for Cultured Cow-Girls. Barbara Bumpus, Pat Welsh, and Barbara Conroy are instructors in the gentle art of chewin' t'backy, while Claire Cunningham, Mary Curran, and Kathleen Denny can easily show the most eitified dude how to euss in one easy lesson. If you want to learn to ride, Ann Fay, head cow-girl at the college, will sign you into a high-flying riding course. Ann Finneran, a surviving customer, says, "Oh, my aching back!"

Fraulein Joyce Anderson, is now modeling the latest Paris rubbers designed by that notorious Frenchman, Jaques Phinney, at Raymonds de Boston.

There will be the ringing of bells in the future for vivacious Olive Durgin and that dashing lover Tom Skelly. It seems they have been employed by Willy Goode's Good Humor Service.

Aggie Sullivan was caught smuggling home made narcotics out of the chem-lab. by Patricia Evangelista, Private Eye.

Val Gutke has opened up a food concession at the bottom of the spiral staircase near the girls' gym lockers. And then down in . . .

Hey, gals!

Huh? Whatsa matta, pal?

We gotta hurry. If we don't, we may not be able to reach Mars before it moves out of its orbitular swing. And besides we're double parked ontoppa all that scrap iron that used to be a car, don't forget.

OK! Sorry to run out on you earthlings, but you know how it is! So long!
